

VIBRASCOPE ASB10 WIRED

Characteristics

Intuitive and touch screen for ease of use

Noise reducing stereo headset with integrated microphone for easy communication with victims

Cigarette lighter socket with cordura supplied cable

Management of sensors individually or simultaneously

Precise sound: 3 frequency filters "high pass" / "low pass" / "band pass"

Maximal reliability : 6 ultra-high sensitivity vibration with 8m of cable

1 sound sensor incorporating a loud speaker, with 8m of cable

Shock resistant

Very light: a weight of only 1.290 Kg (box only)

Up to 22 hours of recording possible on an SD card

Transport house with a transport strap

Technical Information

FREQUENCY USED : Wifi 2.4 GHz

WEIGHT OF THE DISPLAY : 1,290 kg

PROTECTION RATING (Display) : IP54

PROTECTION RATING (Sensor) : IP67

FREQUENCY RESPONSE - AUDIO : 1 to 3000 Hz

AUTONOMY (depending on usage) : 4 to 6 hours

BATTERY CHARGING TIME : 4 hours

WEIGHT (with carrying case) : 20 kg

BOX DIMENSIONS (L x l x H) : 802 x 520 x 316 mm

SENSOR DIMENSIONS (Ø x h) : Ø94 x 130 mm

OPERATING TEMPERATURE : -10°C to +60°C

STORAGE TEMPERATURE : -40°C to +70°C
