

*Include
Remote control*

E-STAB ELECTRIC LIFTING AND STABILIZING STRUTS

Characteristics

Hybrid strut allowing both lifting and stabilizing

Equipped with a powerful electric ball screw jack

Compatible with the M18 Milwaukee battery and the Scorpe RAM accessories kit

**The struts can be deployed on the spot with a toggle switch
or far away thanks to the remote control**

**The remote control allows the user to control
each strut individually as well as both simultaneously**

Each strut has 2 different heads and an anchor plate
