

Fire Floating Pump 13 HP

Technical Information

Maximum flow rate: 1500 L/min – 0.1 bar

Maximum pressure: 5.6 bar

Pressure at 500 L/min: 3.45 bar

Reservoir: 2.8 L

Weight: 50 kg

Remote control range: Up to 150m

Pump autonomy time: 60 minutes at full charge

Autonomy of each battery: Approximately 50 starts

Charging time for each battery: 100 minutes

Hose outlet diameter: DN65

Engine brand: Bridge and Straton, 13HP

Pump dimensions: 750x750x550mm

Advantages

Remote control:

- Start, Stop, Starter
- Slow mode, Fast mode

MANUAL START IN CASE OF BATTERY FAILURE

- Low fuel level alert: Indicated by a flashing red light
- Battery: Milwaukee M18 (5 or 8 Ah)
- Self-priming: Less than 2 seconds for self-priming
- Minimum water height: 4 cm

Possible pumping of contaminated water

Capable of pumping water containing suspended particles
