

Road Rescue

Scorp'Air 2S

Technical Information

MODEL	Length (mm)	Width (mm)	Thick (mm)	Race (mm)	Weight (mm)	ABILITY LIFTING MAX (T)	VOLUME AIR AT 10 BAR (L)
33T	560	560	25	170	11	33	320
40T	620	620	25	170	12	40	420
60T	750	750	25	170	18	60	680
75T	840	840	25	170	22	75	900
90T	920	920	25	170	26	90	1120

Advantages

- Flat surface of the cushion allowing the superposition of 3 lifting bags.
- Increased stability.
- 5 different sizes ranging from 33 to 90 tonnes of lifting force.
- Only 25 mm thick for easy insertion into small spaces.
- SBR material with high abrasion resistance and longer service life.
- 4/1 safety factor and complies with EN 13731.

Accessories

- Scorp'Air 2S Inflation Kit
