Vibraphone ASB10 WIRELESS / WIRED

➤ Technical Information

FREQUENCY USED: Wi-Fi 2.4 GHz

WEIGHT OF THE DISPLAY: 1,290 kg

PROTECTION RATING (Display): IP54

PROTECTION RATING (Sensor): IP 67

FREQUENCY RESPONSE – AUDIO: 1 to 3000 Hz

AUTONOMY (depending on usage): 4 to 6 hours

BATTERY CHARGING TIME WEIGHT (with carrying case): 4 hours

BOX DIMENSIONS (L x l x H): 20 kg

SENSOR DIMENSIONS (Ø x h): Ø94 x 130 mm

OPERATING TEMPERATURE: -10°C to +60°C

STORAGE TEMPERATURE: -40°C to + 70°C

Advantages

- Intuitive and touch screen for ease of use
- Noise reducing stereo headset with integrated microphone for easy communication with victims
- Management of sensors individually or simultaneously
- Precise sound: 3 frequency filters “high pass” / “low pass” / “band pass”
- Maximal reliability : 6 ultra-high sensitivity vibration with 8m of cable
- 1 sound sensor incorporating a loudspeaker, with 8m of cable
- Shock resistant
- Very light: a weight of only 1.290 Kg (box only)
- Up to 22 hours of recording possible on an SD card
- Transport bag with a transport strap
- Cigarette lighter socket with cordura supplied cable
